227.7102-3

227.7102 Commercial items, components, or processes.

Section 2320(b)(1) of Title 10 U.S.C. establishes a presumption that commercial items are developed at private expense whether or not a contractor submits a justification in response to a challenge notice. Therefore, do not challenge a contractor's assertion that a commercial item, component, or process was developed at private expense unless the Government can demonstrate that it contributed to development of the item, component or process. Follow the procedures in 227.7103-13 and the clause at 252.227-7037, Validation of Restrictive Markings on Technical Data, when information provided by the Department of Defense demonstrates that an item, component, or process was not developed exclusively at private expense. However, when a challenge is warranted, a contractor's or subcontractor's failure to respond to the challenge notice cannot be the sole basis for issuing a final decision denying the validity of an asserted restriction.

227.7102-1 Policy.

(a) DoD shall acquire only the technical data customarily provided to the public with a commercial item or process, except technical data that—

- (1) Are form, fit, or function data;
- (2) Are required for repair or maintenance of commercial items or processes, or for the proper installation, operating, or handling of a commercial item, either as a stand alone unit or as a part of a military system, when such data are not customarily provided to commercial users or the data provided to commercial users is not sufficient for military purposes; or
- (3) Describe the modifications made at Government expense to a commercial item or process in order to meet the requirements of a Government solicitation.

(b) To encourage offerors and contractors to offer or use commercial products to satisfy military requirements, offerors, and contractors shall not be required, except for the technical data described in paragraph (a) of this subsection, to—

- (1) Furnish technical information related to commercial items or processes

that is not customarily provided to the public; or

- (2) Relinquish to, or otherwise provide, the Government rights to use, modify, reproduce, release, perform, display, or disclose technical data pertaining to commercial items or processes except for a transfer of rights mutually agreed upon.

227.7102-2 Rights in technical data.

(a) The clause at 252.227-7015, Technical Data—Commercial Items, provides the Government specific license rights in technical data pertaining to commercial items or processes. DoD may use, modify, reproduce, release, perform, display, or disclose data only within the Government. The data may not be used to manufacture additional quantities of the commercial items and, except for emergency repair or overhaul, may not be released or disclosed to, or used by, third parties without the contractor's written permission. Those restrictions do not apply to the technical data described in 227.7102-1(a).

(b) If additional rights are needed, contracting activities must negotiate with the contractor to determine if there are acceptable terms for transferring such rights. The specific additional rights granted to the Government shall be enumerated in a license agreement made part of the contract.

227.7102-3 Contract clause.

(a) Except as provided in paragraph (b) of this subsection, use the clause at 252.227-7015, Technical Data—Commercial Items, in all solicitations and contracts when the contractor will be required to deliver technical data pertaining to commercial items, components, or processes. Do not require the contractor to include this clause in its subcontracts.

(b) Use the clause at 252.227-7013, Rights in Technical Data—Non-commercial Items, in lieu of the clause at 252.227-7015 if the Government will pay any portion of the development costs. Do not require the contractor to include this clause in its subcontracts for commercial items or commercial components.

(c) Use the clause at 252.227-7037, Validation of Restrictive Markings on
